

Task 3: Create a Personal Timeline

Using the timeline example as a model, create a realistic timeline for your own capstone project. Mark key deadlines.
以时间线示例为模型，为你自己的顶点项目创建一个现实的时间线。标出关键截止日期。

My Capstone Timeline 我的顶点项目时间线:

- **Week 1 (Proposal Due):** _____
- **Week 2-3:** _____
- **Week 4-5:** _____
- **Week 6-7:** _____
- **Week 8 (Final Draft Due):** _____

Chapter 21: Capstone Work I - Research & Outlining

第二十一章：顶点项目工作 I - 研究与提纲 (Dìngdiǎn xiàngmù gōngzuò I - Yánjiū yǔ tígāng)

Your Goal for This Chapter 本章目标 (Běn zhāng mùbiāo): To move from your approved proposal into the active research phase. You will learn strategies for deep, efficient research and how to structure your findings into a detailed outline, which is the blueprint for your first draft.

从你已批准的提案进入积极的研究阶段。你将学习深入、高效研究的策略，以及如何将你的发现构建成一个详细的提纲，这是你初稿的蓝图。

Lesson 21.1: Strategic Deep Research

第一课：战略性深度研究 (Zhànlüè xìng shēndù yánjiū)

Part 1: Moving Beyond the Basics

超越基础 (Chāoyuè jīchǔ)

Your initial research found sources that helped you write your proposal. Now you need sources that will help you *write your paper*. This requires a deeper, more targeted approach.

你初步的研究找到了帮助你撰写提案的资源。现在你需要能够帮助你撰写论文的资源。这需要更深入、更有针对性的方法。

Shift Your Search Terms 转变你的搜索词:

- **From Broad 从宽泛:** "social media and mental health"
"社交媒体与心理健康"
- **To Specific 到具体:** "Instagram AND self-esteem AND longitudinal study AND adolescents"
"Instagram AND 自尊 AND 纵向研究 AND 青少年"

Use the **advanced search** functions in databases to filter by:

使用数据库中的**高级搜索**功能来按以下条件筛选：

- **Publication Date 出版日期:** Get the most recent research.
获取最新的研究。
- **Subject Terms 主题词:** Find sources that are precisely categorized.
找到精确分类的资源。
- **Scholarly/Peer-Reviewed Journals 学术/同行评审期刊:** Ensure academic rigor.
确保学术严谨性。

Part 2: The Source Triage System

资源筛选系统 (Zīyuán shāixuǎn xìtǒng)

Not all sources are created equal. As you find them, sort them into three categories:

并非所有资源都是平等的。当你找到它们时，将其分为三类：

1. **Keystone Sources 核心资源:** The 3-5 most important articles or books that are directly central to your argument. You will read these word-for-word and cite them frequently.
3-5篇最重要的文章或书籍，与你的论证直接核心相关。你将逐字阅读这些内容并频繁引用。
2. **Supporting Sources 支持性资源:** Sources that provide useful evidence for a specific point or section. You might only read a key chapter or section.
为特定观点或部分提供有用证据的资源。你可能只阅读一个关键章节或部分。
3. **Background Sources 背景资源:** Sources that help you understand the general context but may not be cited directly. Encyclopedias, textbooks, general overviews.
帮助你理解总体背景但可能不会直接引用的资源。百科全书、教科书、总体概述。

This system prevents you from getting overwhelmed and ensures you spend your time on what matters most.

这个系统可以防止你不知所措，并确保你的时间花在最重要的事情上。

Lesson 21.2: The Detailed Outline - Your Draft's Blueprint

第二课：详细提纲——你草稿的蓝图 (Xiángxì tígāng——Nǐ cǎogǎo de lántú)

A detailed outline is not a list of topics. It is the fully planned structure of your essay, complete with your evidence integrated. Writing from a strong outline is faster and produces a more coherent draft.

详细的提纲不是主题列表。它是你文章完全规划好的结构，并整合了你的证据。根据一个强大的提纲写作更快，并能产生更连贯的草稿。

Part 1: The Components of a Detailed Outline

详细提纲的组成部分 (Xiángxì tígāng de zǔchéng bùfèn)

Your outline should go down to the paragraph level. For each body paragraph, plan:

你的提纲应该细化到段落级别。对于每个主体段落，规划：

1. **Topic Sentence 主题句:** The point you are making in this paragraph. It should support your thesis.
你在本段中要阐述的论点。它应该支持你的论文。
2. **Evidence 证据:** The specific quotes, data, or paraphrased ideas from your sources that support your topic sentence.
Include author names and page numbers.
来自你资源的特定引文、数据或释义观点，用以支持你的主题句。**包含作者姓名和页码。**
3. **Explanation/Analysis 解释/分析:** Your voice. A note on how the evidence proves your point. Why does this matter? How does it connect to the next idea?
你的声音。关于证据如何证明你的观点的注释。这为什么重要？它如何连接到下一个观点？
4. **Link 连接:** How this paragraph leads to the next one.
这个段落如何引导到下一个段落。

Part 2: Outline Format Example

提纲格式示例 (Tígāng géshì shìlì)

Thesis: While AI writing tools offer valuable support for ESL students in improving surface-level accuracy, their overuse can hinder the development of deeper critical thinking and authentic voice in academic writing.

论文：虽然AI写作工具为ESL学生提高表面准确性提供了宝贵的支持，但过度使用会阻碍学术写作中更深层次批判性思维和真实声音的发展。

I. Introduction

A. Hook: Statistic on AI tool usage in universities.

- B. Background: Rise of Grammarly, Quillbot, etc.
C. Thesis: (See above).

II. Body Paragraph 1: The Benefits for Surface-Level Accuracy

- A. **Topic Sentence:** AI tools can significantly reduce grammatical and mechanical errors for intermediate ESL writers.
B. **Evidence:** - Smith (2023) study: 40% reduction in errors in student essays using tool X (p. 15).
- "The automated feedback provides immediate correction, which is crucial for acquisition" (Chen, 2022, p. 8).
C. **Analysis:** This shows these tools are effective as a digital proofreader, freeing up student mental energy.
D. **Link:** However, this focus on error correction does not address higher-order writing skills.

III. Body Paragraph 2: The Limitation for Critical Thinking

- A. **Topic Sentence:** The convenience of AI suggestions can bypass the crucial cognitive process of self-editing and critical evaluation.
B. **Evidence:** - Lee (2024) interviews: students "just accept the changes" without understanding why they were wrong (p. 5).
- Garcia (2023) argues that the struggle with grammar is part of the learning process itself (p. 102).
C. **Analysis:** If a student doesn't engage with the mistake, they are less likely to learn from it, creating a dependency.
D. **Link:** Furthermore, the impact goes beyond grammar to the writer's own voice.

(The outline would continue like this for all paragraphs, including the counterargument and conclusion.)

Lesson 21.3: Managing Your Research

第三课：管理你的研究 (Guǎnlǐ nǐ de yánjiū)

Part 1: The Annotated Bibliography Revisited

重温带注释的参考文献 (Chóngwēn dài zhùshì de cānkǎo wénxiàn)

Now is the time to build a formal **Annotated Bibliography** 带注释的参考文献 for your Keystone and Supporting sources. This is different from your synthesis matrix. Each source gets its own entry with:

现在是时候为你的核心和支持性资源建立一个正式的带注释的参考文献了。这与你的综合矩阵不同。每个资源都有其自己的条目，包含：

- **APA/MLA Citation APA/MLA 引文:** The formal citation.
正式的引文。
- **Summary (3-4 sentences) 总结 (3-4句):** What is the source's main argument and findings?
资源的主要论点和发现是什么？
- **Relevance (1-2 sentences) 相关性 (1-2句):** How will you use this source in your capstone? Which section does it support?
你将如何在你的顶点项目中使用这个资源？它支持哪个部分？

This process solidifies your understanding of each source and makes writing your draft infinitely easier.
这个过程巩固你对每个资源的理解，并使撰写草稿变得无限容易。

Part 2: Avoiding the "Writing Wall"

避免“写作墙” (Bìmiǎn “xiězuò qiáng”)

When faced with a blank page, it's easy to freeze. Your detailed outline and annotated bibliography are your solutions. You are not starting from scratch. You are simply **translating your outline into prose**.

当面对一个空白页面时，很容易卡住。你的详细提纲和带注释的参考文献就是你的解决方案。你不是从零开始。你只是在将你的提纲翻译成散文。

If you get stuck on a section, move to another one. You do not have to write the draft in order.
如果你在某一部分卡住了，就转到另一部分。你不必按顺序写草稿。

Homework: The Architect's Plan

作业：建筑师的计划 (Jiànzhù shī de jìhuà)
