

- "However, a key question remains unanswered: ..."
"然而，一个关键问题仍未得到解答：..."
- "Despite this wealth of data, few researchers have examined..."
"尽管有大量数据，但很少有研究人员研究过..."
- "The literature is currently divided on the issue of..."
"关于...问题，目前的文献存在分歧。"
- "This gap in the literature suggests a need for further research into..."
"文献中的这一空白表明需要进一步研究..."

Homework: The Synthesis Apprentice

作业：综合学徒 (Zònghé xuétú)

Task 1: Find the Conversation

Find 3-4 academic sources on a focused topic. Read the abstracts and introductions.

找到一个重点主题的3-4个学术资源。阅读摘要和引言。

- **My Topic 我的主题:** _____
- **Source 1:** _____
- **Source 2:** _____
- **Source 3:** _____

Task 2: Build a Mini-Matrix

Create a small synthesis matrix for your three sources. Identify at least two common themes or points of debate.

为你的三个资源创建一个小型综合矩阵。识别至少两个共同主题或辩论点。

Theme / Debate	Source 1	Source 2	Source 3	My Synthesis

Task 3: Write a Synthesis Paragraph

Using one row from your matrix, write a full paragraph that Synthesises the sources around that theme. Use language from the Language Box.

使用你矩阵中的一行，写一个完整的段落，围绕该主题综合资源。使用语言框中的语言。

Synthesis Paragraph 综合段落: _____

Chapter 17: The Research Proposal

第十七章：研究计划书 (Yánjiū jìhuà shū)

Your Goal for This Chapter 本章目标 (Běn zhāng mùbiāo): To learn how to design and propose a formal academic research project. A research proposal argues for why your project is worth doing and how you will do it.

学习如何设计和提出正式的学术研究项目。研究计划书论证为什么你的项目值得做以及你将如何做。

Lesson 17.1: The Blueprint for Research

第一课：研究蓝图 (Yánjiū lántú)

Part 1: What is a Research Proposal?

什么是研究计划书？(Shénme shì yánjiū jìhuà shū?)

A **research proposal 研究计划书** is a formal document that presents a plan for a research project. Its purpose is to convince others (like professors or funding committees) that:

研究计划书是一份呈现研究项目计划的正式文件。其目的是说服他人（如教授或资助委员会）相信：

1. You have identified a significant research problem.
你已识别出一个重要的研究问题。
2. You are familiar with the existing literature on the topic.
你熟悉该主题的现有文献。
3. You have a sound methodology for conducting the research.
你拥有进行研究的合理方法。
4. Your project will make an original contribution to knowledge.
你的项目将为知识做出原创性贡献。

It is an argument for the value and feasibility of your idea.

它是为你 idea 的价值和可行性进行的论证。

Part 2: Core Components

核心组成部分 (Héxīn zǔchéng bùfèn)

Most research proposals contain these key sections:

大多数研究计划书包含这些关键部分：

1. **Introduction & Problem Statement 引言与问题陈述:** What is the topic and why is it important?
主题是什么？为什么它重要？
2. **Literature Review 文献综述:** What is already known? What gap will your research fill?
已知什么？你的研究将填补什么空白？
3. **Research Questions & Objectives 研究问题与目标:** What exactly will you answer or achieve?
你具体要回答或实现什么？
4. **Methodology 方法论:** How will you conduct the research? (This is the most detailed section.)
你将如何进行研究？（这是最详细的部分。）
5. **Significance/Implications 意义/影响:** Why does this matter? Who will benefit?
这为什么重要？谁将受益？
6. **Timeline & Bibliography 时间线与参考文献:** A plan for completion and a list of sources.
完成计划和一个来源列表。

Lesson 17.2: Arguing for Your Project

第二课：为你的项目论证 (Wèi nǐ de xiàngmù lùnzheng)

Part 1: The Problem Statement

问题陈述 (Wèntí chéngshù)

This is the "why" of your proposal. It must answer:

这是你计划书的“为什么”。它必须回答：

- **What is the problem?** Be specific.
问题是什么？要具体。
- **Why is it a problem?** What are the negative consequences of this gap in knowledge?
为什么这是个问题？这个知识空白有什么负面后果？
- **Who cares?** Why should others consider this an important problem to solve?
谁在乎？为什么其他人应该认为这是一个需要解决的重要问题？

Formula 公式: "Although much is known about [general topic], there is a lack of [specific knowledge] regarding [specific population/context]. This is problematic because [consequence of not knowing]. Therefore, this study proposes to [your research action]."

例子: "Although much is known about the benefits of mindfulness, there is a lack of qualitative data regarding how international students experience mindfulness apps for managing culture shock. This is problematic because universities invest in these apps without understanding their user experience. Therefore, this study proposes to conduct in-depth interviews to explore this phenomenon."

Part 2: Research Questions & Objectives

研究问题与目标 (Yánjiū wèntí yǔ mùbiāo)

Your research question(s) should be focused, researchable, and directly connected to the gap you identified.

你的研究问题应该集中、可研究，并且与你识别的空白直接相关。

- **Too Broad 太宽泛:** "How does social media affect people?"
“社交媒体如何影响人们？”
- **Focused & Researchable 集中且可研究:** "How does daily Instagram use (1+ hours) correlate with self-reported feelings of body image satisfaction among female undergraduates in the UK?"
“每日使用 Instagram（1小时以上）与英国女本科生自我报告的身体形象满意度感觉如何相关？”

Objectives 目标 are the specific steps you will take to answer your research question.

目标是你为回答研究问题将采取的具体步骤。

- **Objective 1:** To review the literature on social media and body image.
目标 1：回顾关于社交媒体和身体形象的文献。
- **Objective 2:** To administer a survey measuring Instagram usage and body image satisfaction.
目标 2：进行一项测量 Instagram 使用情况和身体形象满意度的调查。
- **Objective 3:** To analyze the data for correlational significance.
目标 3：分析数据以获得相关性显著性。

Lesson 17.3: The Methodology Section

第三课：方法论部分 (Fāngfǎ lùn bùfèn)

This is the "how" of your proposal. It must be detailed enough that someone else could replicate your study.

这是你计划书的“如何”。它必须足够详细，以便其他人可以复制你的研究。

Part 1: Choosing Your Methods

选择你的方法 (Xuǎnzé nǐ de fāngfǎ)

Your methodology flows directly from your research question.

你的方法论直接源于你的研究问题。

If Your Question Asks About...	Your Method Might Be...	Why?
Numbers, trends, relationships, "how many?" 数字、趋势、关系、“有多少？”	Quantitative 定量的 Surveys, experiments, statistical analysis of data 调查、实验、数据统计分析	It produces numerical data that can be measured and analyzed statistically.
Experiences, meanings, perspectives, "why?" or "how?" 经历、意义、观点、“为什么？”或“如何？”	Qualitative 定性的 Interviews, focus groups, case studies, textual analysis 访谈、焦点小组、案例研究、文本分析	It explores deeper understanding, reasons, and motivations through words.
Both of the above 以上两者	Mixed-Methods 混合方法 A combination of surveys and interviews 调查和访谈的结合	It provides both statistical trends and deep, contextual understanding.

Part 2: What to Include in Methodology

方法论中应包含的内容 (Fāngfǎ lùn zhōng yīng bāohán de nèiróng)

- 1. Research Design 研究设计:** Is it quantitative, qualitative, or mixed-methods? Is it an experiment? A case study? A survey?
是定量、定性还是混合方法？是实验？案例研究？调查？
- 2. Participants/Data Sources 参与者/数据来源:** Who or what will you study? How will you select them? (e.g., "30 first-year students recruited from the university participant pool," or "an analysis of 50 news articles from X newspaper").
你将研究谁或什么？你将如何选择他们？（例如：“从大学参与者库中招募的30名一年级学生”，或“对X报纸的50篇新闻文章进行分析”）。
- 3. Data Collection 数据收集:** What will you actually *do*? (e.g., "I will conduct 45-minute semi-structured interviews using the following questions...", "I will administer a survey using the Likert scale...").
你实际要做什么？（例如：“我将使用以下问题进行45分钟的半结构化访谈...”，“我将使用李克特量表进行调查...”）。
- 4. Data Analysis 数据分析:** How will you make sense of the data? (e.g., "I will use thematic analysis to identify patterns in the interview transcripts," or "I will use SPSS software to run a correlation analysis.").
你将如何理解数据？（例如：“我将使用主题分析来识别访谈记录中的模式”，或“我将使用SPSS软件进行相关性分析。”）。
- 5. Ethical Considerations 伦理考虑:** How will you protect your participants? (e.g., anonymity, informed consent, right to withdraw). This is crucial.
你将如何保护你的参与者？（例如：匿名、知情同意、退出权）。这至关重要。

Homework: The Proposal Planner

作业：计划书规划者 (Jìhuà shù guīhuà zhě)

Task 1: Draft a Problem Statement

Choose a potential research topic. Write a 3-4 sentence problem statement using the formula from Lesson 2.
选择一个潜在的研究主题。使用第二课中的公式写一个3-4句的问题陈述。

- **My Problem Statement 我的问题陈述:** _____

Task 2: Develop a Research Question

Based on your problem statement, write one clear, focused, and researchable main research question.
基于你的问题陈述，写一个清晰、集中、可研究的主要研究问题。

- **My Research Question 我的研究问题:** _____

Task 3: Outline Your Methodology

Answer the following questions to plan your methodology.
回答以下问题来规划你的方法论。

- **1. Research Design 研究设计:** Will your study be Quantitative, Qualitative, or Mixed-Methods? Why?
你的研究将是定量、定性还是混合方法？为什么？
- **2. Participants/Data 参与者/数据:** Who or what will you study? How many?
你将研究谁或什么？多少数量？
