

- **3. Data Collection 数据收集:** What is one specific thing you will do to collect data? (e.g., a survey, an interview, an experiment).
为了收集数据，你将做的一件具体事情是什么？（例如：调查、访谈、实验）。
- **4. Ethical Consideration 伦理考虑:** What is one ethical issue you might face and how will you handle it?
你可能面临的一个伦理问题是什么？你将如何处理它？

Chapter 18: The "They Say / I Say" Model

第十八章：“他们说/我说”模型 (“Tāmen shuō / Wǒ shuō” móxíng)

Your Goal for This Chapter 本章目标 (Běn zhāng mùbiāo): To master the essential academic skill of entering a conversation by summarising others' ideas ("they say") and clearly responding with your own ("I say"). This model is the core of persuasive academic writing.

掌握进入对话的基本学术技能：总结他人的观点（“他们说”）并清晰地回应自己的观点（“我说”）。这种模型是有说服力的学术写作的核心。

Lesson 18.1: Joining the Academic Conversation

第一课：加入学术对话 (Jiārù xuéshù duìhuà)

Part 1: Writing is a Conversation

写作是一场对话 (Xiězuò shì yī chǎng duìhuà)

Imagine academic writing as a lively dinner party discussion. You wouldn't just walk in and shout your opinion. You would: 将学术写作想象成一场热闹的晚宴讨论。你不会直接走进来就大喊你的观点。你会：

1. **Listen** to what others are saying. ("They say...")
倾听别人在说什么。（“他们说...”）
2. **Respond** thoughtfully to their points. ("I say...")
深思熟虑地回应他们的观点。（“我说...”）

This is the **"They Say / I Say"** model. It ensures your writing is engaged and responsive, not just a monologue of your thoughts.

这就是 **“他们说/我说”** 模型。它确保你的写作是投入且回应的，而不仅仅是你想法的独白。

Part 2: Why "They Say" Comes First

为什么“他们说”在先 (Wèishéme “tāmen shuō” zài xiān)

Starting with "they say" does three crucial things:

以“他们说”开头有三个关键作用：

1. **Provides Context 提供背景:** It gives your reader a reason to care about your argument. You are responding to a question or problem that others care about.
它让你的读者有关心你的论证的理由。你是在回应一个他人关心的问题或难题。
2. **Establishes Credibility 建立可信度:** It shows you are knowledgeable about the topic and have done your research.
它表明你对该主题知识渊博并且做了研究。
3. **Creates Momentum 创造动力:** It sets up a problem or debate that your "I say" will resolve. This makes your argument feel necessary and important.
它设置了一个你的“我说”将要解决的问题或辩论。这使你的论证显得必要且重要。

Lesson 18.2: The Templates of Conversation

第二课：对话的模板 (Duihuà de múbǎn)

The authors of *They Say/I Say*, Gerald Graff and Cathy Birkenstein, provide templates to help you execute this model smoothly.

They Say/I Say 的作者 Gerald Graff 和 Cathy Birkenstein 提供了模板来帮助你顺利执行这个模型。

Part 1: Introducing "They Say"

引入“他们说” (Yīnrù “tāmen shuō”)

Use these templates to introduce the views you are responding to.

使用这些模板来引入你要回应的观点。

- **A standard view 一个标准观点:** "Many people assume that..."
“许多人认为...”
- **A specific author 一个特定的作者:** "Sociologist Dr. X has argued that..."
“社会学家X博士认为...”
- **A current debate 一个当前的辩论:** "In discussions of X, one controversial issue has been..."
“在关于X的讨论中，一个有争议的问题是...”
- **An opposing view 一个反对观点:** "On the one hand, some scholars argue... On the other hand, others contend..."
“一方面，一些学者认为...另一方面，其他人主张...”

Part 2: Launching "I Say"

展开“我说” (Zhǎnkāi “wǒ shuō”)

Use these templates to clearly signal your response.

使用这些模板来清晰地表明你的回应。

- **Agreeing 同意:** "I agree with X that..., because my research shows..."
“我同意X的观点，因为我的研究表明...”
- **Disagreeing 不同意:** "While X argues..., I disagree because..."
“虽然X认为...，但我不同意，因为...”
- **Agreeing and Disagreeing 同意和不同意:** "Although I grant that..., I still maintain that..."
“尽管我承认...，但我仍然坚持认为...”
- **Making a concession 做出让步:** "Proponents of X are right to argue..., but they are overly simplistic in claiming..."
“X的支持者认为...是对的，但他们声称...过于简单化了。”

Lesson 18.3: Weaving the Model into Your Writing

第三课：将模型融入你的写作 (Jiāng móxíng róng rù nǐ de xiězuò)

The "They Say / I Say" model isn't just for introductions. It is the basic unit of academic argumentation throughout your essay.

“他们说/我说”模型不仅仅用于引言。它是贯穿你文章的基本学术论证单元。

Part 1: The Naysayer Paragraph

反对段 (Fǎnduì duàn)

A powerful way to use this model is to dedicate a whole paragraph to addressing a counterargument.

使用这个模型的一个有力方式是专门用一个段落来处理反论点。

1. **They Say:** Introduce the strongest objection to your argument.
他们说： 引入对你的论证最强烈的反对意见。
2. **I Say:** Refute that objection with evidence and reasoning.
我说： 用证据和推理反驳那个反对意见。

Example 例子:

- **They Say:** "Some might object that my focus on individual solutions to climate change lets large corporations off the hook for their disproportionate role in creating the problem."
“有些人可能反对说，我关注气候变化的个体解决方案让大公司摆脱了它们在制造问题中扮演的不成比例角色的责任。”
- **I Say:** "While this criticism is valid, it overlooks the fact that consumer demand drives corporate behaviour. Widespread individual adoption of sustainable practices creates a powerful economic incentive for corporations to change, making individual and systemic action two sides of the same coin."
“虽然这个批评是合理的，但它忽略了消费者需求驱动企业行为的事实。广泛采用可持续的个体实践为企业变革创造了强大的经济激励，使个体和系统行动成为同一枚硬币的两面。”

Part 2: Putting It All Together - A Worked Example

综合应用——一个完整的例子 (Zònghé yìngyòng——Yīgè wánzhěng de lìzi)

Topic: Should AI be used in university grading? 主题：人工智能应该用于大学评分吗？

Step 步骤	Example 例子	Template Used 使用的模板
1. They Say	"Many educators and technologists enthusiastically support using AI for grading. They argue that it can save instructors countless hours of tedious work, allowing them to focus on more meaningful student interaction (Smith, 2023)."	"Many people assume that..." "They argue that..."
2. I Say	"While I agree that reducing teacher workload is a worthy goal, I contend that replacing human graders with AI undermines the very purpose of education, which is to understand the unique human mind behind each assignment."	"While I agree that..., I contend that..."
3. Because	"An AI can scan for grammar and check for plagiarism, but it cannot understand nuance, creativity, or a student's intellectual journey. It cannot provide the empathetic encouragement or the insightful 'why' that a human teacher can."	(This is the evidence and reasoning for my "I say")
4. Therefore	"Therefore, we should view AI as a tool to assist teachers with administrative tasks, not as a replacement for their essential role in evaluating student learning."	(This concludes the point and reinforces my argument)

Homework: The Conversationalist
